

Scribe 9000 Flex Cell Quick-Turn System

Redefining Short Run CD/DVD Production

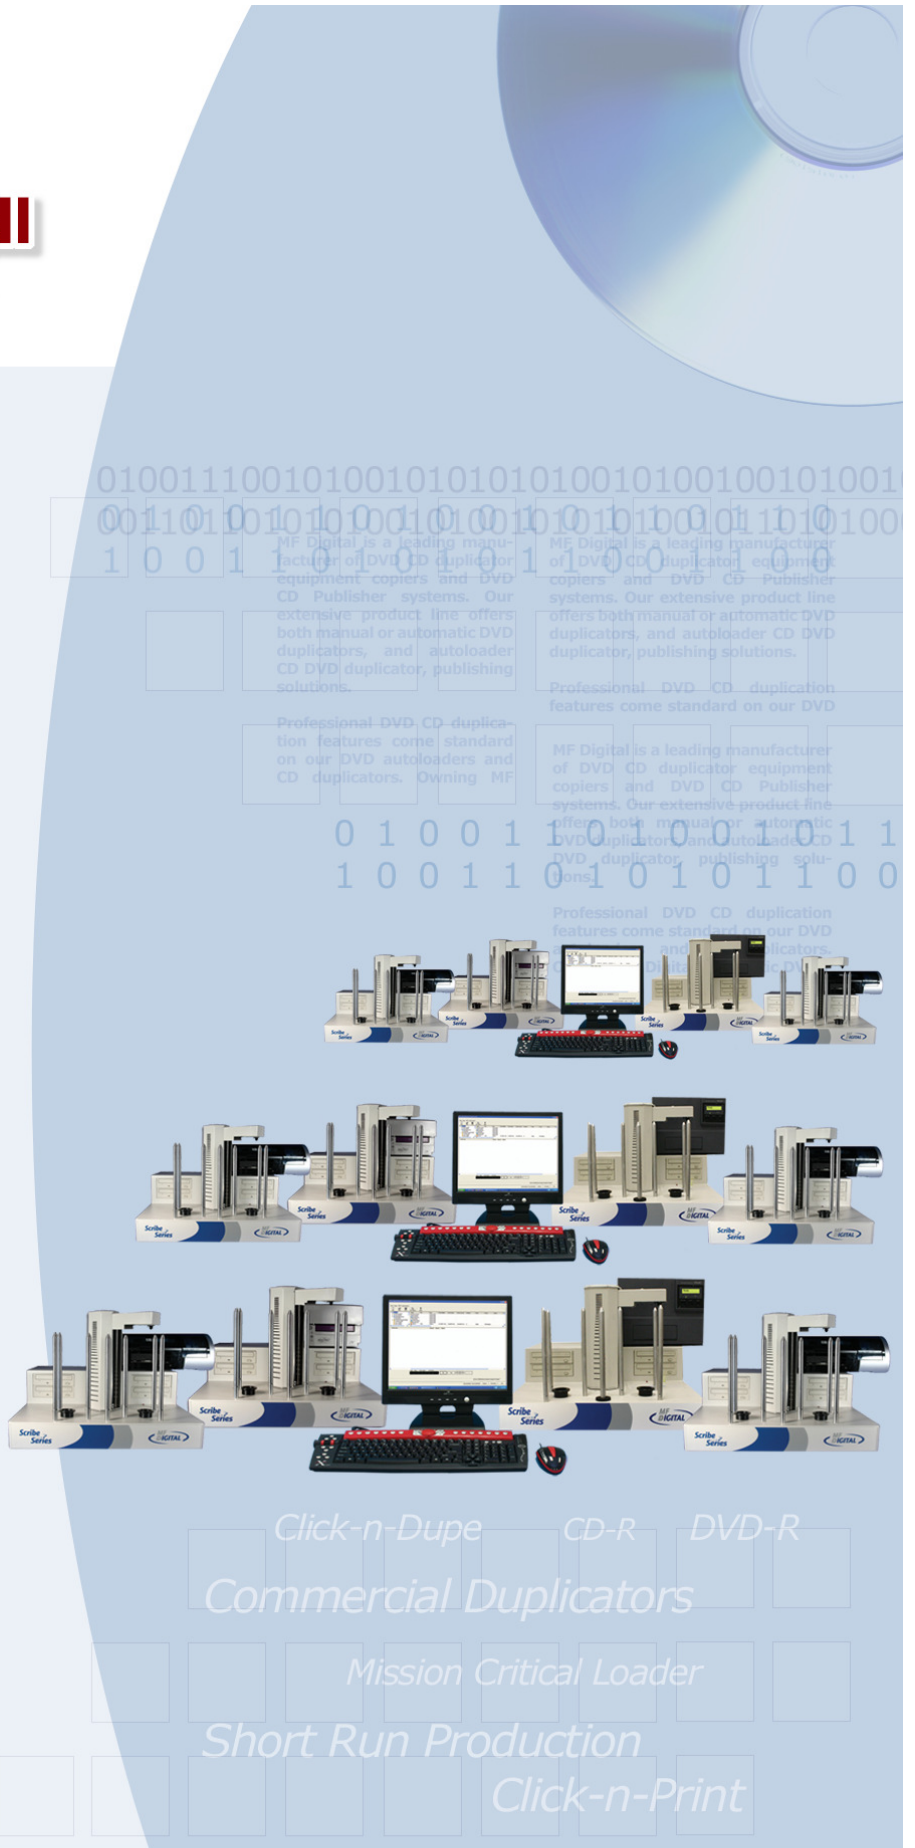

Flexible, Durable, Reliable

The Scribe 9000 Flex Cell Quick-Run System is a feature rich production station. Easy to use, simple to set-up with snap-n-go printing, the Flex Cell ushers in a new era of commercial CD/DVD production.

Engineered to perfection, the Flex Cell has up to 1,200 input capacity with 16 CD/DVD drives - the largest in the industry along with three print technologies for unparalleled performance. Using a KVM approach with PC built-in the Flex Cell system is pre-configured resulting in easy setup without error - simply connect Keyboard, Video Monitor and Mouse and begin production.

MF Digital offers unique features which other manufacturers do not. From the moment you open the box to the last disc of the day, you can count on Flex Cell.

Let our commercial production solutions do more for you; experience the future with MF Digital.

Scribe 9000 Flex Cell Quick-Turn System

Equipment Redundancy

The Scribe 9000 Flex Cell Quick-Run system has attention to detail for the Commercial Duplicator. With redundancy factors built-in, one module can be off-line without affecting the other systems in heavy production mode. Four printers are integrated to insure optimal CD/DVD production, throughput and performance.

Lights Out Production

Flex Cell is a 24/7 mission critical, professional grade system which is surprisingly easy to operate. With unlimited job queuing, detailed activity logs and database exporting ability, you have the comfort of knowing every job is submitted, duplicated, printed and processed with 100% accuracy – Truly lights out production.

Network Based System

Each Flex Cell system runs on MF Digital license free client software. Never before has it been this economical to centralize disc burning and printing. Allocate each module for individual jobs or utilize the entire Flex Cell for highest performance throughput. Flex Cell uses advanced "spindle select" technology so both CD and DVD media can be present - ready for any job sent from the control panel.

Printing for Any Occasion

MF Digital doesn't pigeon-hole you into one printer technology. Mix and match inkjet, thermal and dye-sublimation printers with in your Flex Cell. This thoughtful design offers more options, allowing you to configure a Flex Cell system to your exact needs.
