

**Highlights:**

Simpana® software delivers mobile access and protection for edge data reliably, securely, and cost effectively whether in the field, remote office, or data center.

1. Simplify administration with one robust solution for desktop, laptop and server data
2. Improve data availability and meet compliance requirements.
3. Reduce the cost of protecting remote and mobile data.
4. Network and storage efficient technologies enable rapid, transparent and secure protection for the remote and mobile workforce.
5. Access protected data from virtually anywhere, anytime and on any device

## Get to Your Data from Virtually Anywhere with the CommVault Edge™ Mobile App

### Secure Anytime, Any Device, Anywhere Access to Protected Data

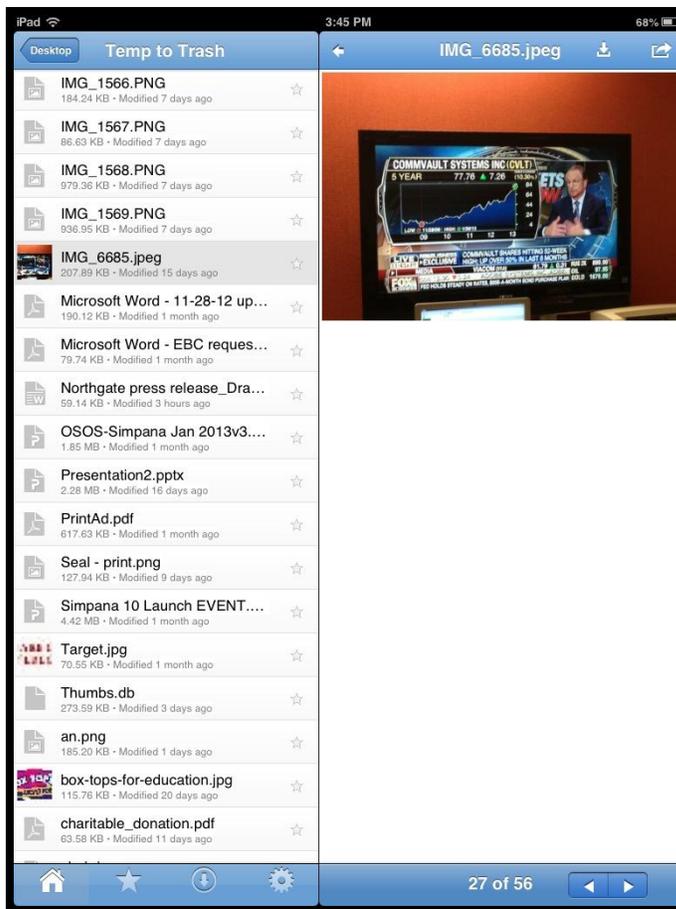

For today's increasingly mobile workforce, retrieving information on the go is essential to aiding better productivity, creativity and satisfaction. Being able to deliver this service securely, within the control of IT; without increasing the burden on the helpdesk; and while cost-effectively meeting the need to discover it for legal and compliance reasons, can deliver real value to your organization.

As part of the Simpana single platform, CommVault Edge™ is a complete enterprise-class solution that delivers efficient, centralized laptop/desktop data protection. It gives users anytime, any device access to their personal data cloud while providing the control you need for faster and more cost-effective search and eDiscovery. Robust features like global, source-side deduplication, opportunistic scheduling, network bandwidth throttling, policy flexibility, automation, integrated indexing capability and easy installation simplify management and enhance availability and productivity. Data can be securely accessed through a web portal and Apps for smartphones and tablets.

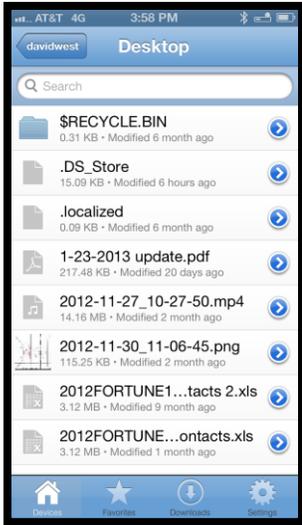

With the CommVault Edge™ app, you can download, view, edit, and share the protected information from your computer's backup. It is free to Simpana software users, downloadable in app stores and available for:

- Android smartphones and tablets
- iOS smartphones and tablets
- Blackberry tablets

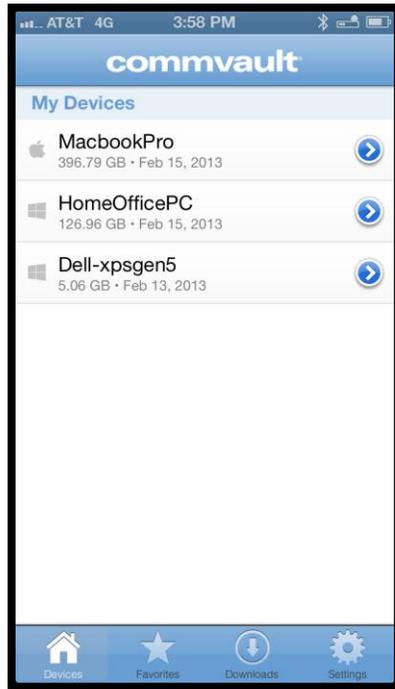

With Simpana software, you can transform the way individuals discover, retrieve and use information.
